This screenshot shows the Visual Studio Code editor with the `index.js` file open. The Explorer sidebar on the left shows a project structure with a `public` folder containing several HTML files and a `script.js` file. The `index.js` file in the center contains the following code:

```
JS index.js > ...
1  const express=require('express');
2  const app=express();
3
4  app.use(express.static('public'))
5
6  app.listen(4000,()=>{
7    console.log("Server has Started")
8  })
```

This screenshot shows the Visual Studio Code editor with the `package.json` file open. The Explorer sidebar on the left shows the same project structure as the previous image. The `package.json` file in the center contains the following code:

```
package.json > ...
