

ASSIGNMENT 1

The screenshot shows the homepage of a travel website named "World Travels". The header features a dark green bar with a white airplane icon on the left and navigation links for "Home", "Locations", "Packages", "About Us", and "Contact Us" on the right. Below the header is a large banner image of a landscape with several hot air balloons. Overlaid on the banner is the website's name "World Travels" in large white letters and a subtext "Plan your trip with us and travel around the world with the most affordable packages!" in smaller white letters. A white button with the text "Register Now!" is centered in the banner area. At the bottom of the screen, a Windows taskbar is visible, showing various open applications and system status icons.

The screenshot shows a services page for "World Travels". The top navigation bar is identical to the homepage. Below it, a main heading reads "We have the best services available for you!". Four service categories are listed in boxes: "Flight Services" (Icon: Airplane, Subtext: Arrival and Departure), "Food Services" (Icon: Fork and knife, Subtext: Catering), "Travel Services" (Icon: Bus, Subtext: Pick-up/drop), and "Hotel Services" (Icon: Hotel building, Subtext: Check-in/out).

The screenshot shows a "Locations" page for "World Travels". The top navigation bar is identical to the previous pages. Below it, there is a list of locations: "New York", "London", "Paris", "Tokyo", "Sydney", "Berlin", "Rome", "Singapore", and "Cape Town". Each location name is preceded by a small airplane icon.

Screenshot of a web browser showing a travel website titled "World Travels". The page features a dark header with a logo of a pink airplane, navigation links for Home, Locations, Packages, About Us, and Contact Us, and a newsletter sign-up form with fields for E-mail and a green "Subscribe" button.

The main content area has sections for "Quick Links" (Register, About Us, Contact Us) and "Connect" (social media icons for Facebook, Instagram, Twitter, LinkedIn, YouTube, WordPress, and a speech bubble). The footer includes a weather widget (24°C Haze), a search bar, and a system tray with various icons and the date/time (02-02-2024).

Screenshot of a code editor (Visual Studio Code) displaying the "index.html" file. The code shows the structure of the travel website, including the navigation bar, title, main content section, and a services section featuring flight and food services. The code editor interface includes an Explorer sidebar with files like "ASSIGNMENT 1", "css", "files", "about.html", "contact.html", "index.html" (which is the active tab), "locations.html", "README.md", and "register.html". A status bar at the bottom indicates the server is running on port 5500.
